

A TOUGH CROWD.

In San Francisco the election was an all day panorama of free fights, riots about the polls and general disorder. The State campaign was a conglomerate mess of forgery, perjury and defamation.

Nearly every candidate on both tickets, was charged with being a thief, liar and trickster, and what's more they were able to prove it in most cases.

The State swarmed with roughs, heeled, and ballot-box stuffers for both parties on election day. It was a carnival of rascality, fraud and corruption, and the press of the State became the open sewers of everybody's filth.

We merely make mention of these matters to show the contrast between the disorderly exercise of the elective franchise, in the Golden State, and the quiet election in the so called "Rotten Borough."

AGRICULTURAL RESOURCES.

The Reno Gazette has the following:

Taking Senator Jones' view of the situation as expressed in his speech Friday night, Nevada has not much to hope for until silver is fully restored to its old place, free coinage inaugurated, and the new depopulated mining camps take on new life and make for us a "new market." The Senator has evidently never looked upon Nevada as possessing any advantage other than mining, and has not given her agricultural possibilities that careful thought that he has to Southern California and the country around Santa Monica. We think Nevada has a great future as an agricultural state, and that if every mine within our borders should be closed down tomorrow we would still live, and in time become great and prosperous. But as great minds differ we will not attempt to convert Senator Jones and we are quite sure that he cannot convert us to his way of thinking.

We have as good a market as our forefathers had in Indiana and Ohio when they began to build up those states. Our cattlemen as well as miners, merchants and workmen buy in Chicago, Sacramento, Salt Lake and elsewhere hundreds of thousands of dollars worth of produce that could be raised here. If all our hams, lard, bacon, butter, eggs, chickens, potatoes, cabbages, grapes, pickles and other things, which can be grown as well as anywhere else in the world, were produced at home Nevada would be better than Utah and have more people. Even if Nevada could not ship out her produce, then men who raise it live better than farmers anywhere else in the world.

It is not true in any sense of the word that we cannot market what we raise. We can market apples, plums, grapes, etc., by supplying the demands in Colorado, Montana and Idaho. We can market alfalfa by turning it into beef, pork, etc, wheat by turning it into flour for the lumber and cattle camps as well as by shipping it to Port Costa at five dollars a ton freight.

A man is a long way behind the times who says that agriculture will fall when mines are wanting. Agriculture is the yeast that develops society. It is the foundation of all development and Nevada will prove no exception to this law. We want the mines of course but we seem to want something else worse, for the State is going down under the mining regime, and only an agricultural development will save it.

We trust that Senator Jones will give the storage and reclamation questions of Nevada that same careful attention that has given to the silver and tariff questions. The aid of so brilliant a mind, backed by the resource of wealth and station at his command, would do much to advance the struggling industries of our State.

The Gazette says a good deal in the above article, which is true.

Senator Jones has been so much of a miner that he has never turned his attention to agriculture but should he take it into his head to "study up" a bit he would be likely to astound the voters.

**THE MANHATTAN**

Life Insurance Co.,

OF NEW YORK.

ASSETS - - \$12,000,000.

BETTER THAN A

**GOVERNMENT BOND.**

The MANHATTAN for a limited period will offer the residents of Nevada a Bond Combining Insurance and investment that is in reach of all and which every healthy-bodied man in the State should possess—for the protection of himself and family.

In explanation read what follows: Suppose a special agent of the U. S. Treasury Department should call on you today and say:

The Government would like to sell you bonds for any amount between \$1,000 and \$30,000 and if it is not convenient for you to make the investment at once, we will allow you to pay for the bonds in

Ten Equal Annual Installments.

And, suppose, in addition to this, the Government, wishing to make this the most desirable investment in the world, should stipulate in the bond, not only to pay them at the end of the term, but in case of your previous death, to pay them to your family and AT THE SAME TIME RELEASE YOUR FAMILY FROM PAYING ANY FURTHER MONEY.

Would you not at once close with such an offer? And yet this is practically what the Manhattan Life Insurance Company, of New York has done and is doing.

For a full explanation of this plan, address, giving your full name, address, occupation and age,
